Optimizing PDF file names for SEO

The file name of a PDF plays a significant role in search visibility. Descriptive, keyword-rich file names help search engines and users understand the document before opening it. Instead of generic names, using clear and relevant terms related to March 31 1995 Friday What Happened On 3 Takemeback To improves both SEO and user trust.

Hyphens should be used to separate words in file names, as they are more search-engine-friendly. Avoid unnecessary numbers or symbols that add no context or value to the document’s topic.
