Overview of the Play

Introduction to the Play's Concept

The America Play is an allegorical exploration of American history through the lens of Black identity. Centered around the figure of the "aron" (a name derived from the historical figure of Abraham Lincoln’s funeral train), the play examines the legacy of slavery, the construction of racial stereotypes, and the ongoing pursuit of recognition and significance. The core of the play revolves around the character of the "Black Obama,"

a replica Texas history figure who performs as a kind of echoes or reflection of American history itself. Parks uses this figure to interrogate how history is remembered, mythologized, and sometimes commodified.

Summary of the Plot

The narrative follows the Laughing Black (the primary character), who operates a replica of the Lincoln funeral train and performs reenactments of Lincoln's assassination with a specific aim: to recreate history and capture its ghostly presence. He also runs a "Funeral Home," where he supposedly offers memorials and tributes. The play unfolds as a series of monologues and dialogues, highlighting the personal and collective struggles ofBlack Americans to define their place within the nation's history. The Laughing Black’s pursuit of the "Prize," a figurative symbol of recognition and acknowledgment, underscores the central tension of the play—the longing for a meaningful identity in a society rooted in racial exploitation. A significant segment involves a character called "The Hero," who is depicted as a slave in a Western frontier setting, symbolizing the history of Black Americans as pioneers and victims simultaneously. Parks also employs storytelling devices like storytelling, performance, and symbolic acts to build a layered narrative that questions the very nature of history and memory.

Themes Explored in The America

Play

1. Race, Identity, and Representation

At its core, the play examines how Black Americans have been portrayed and marginalized throughout history. Parks interrogates the ways in which racial stereotypes are constructed and perpetuated, analyzing their impact on individual and collective identities. The idea of reenacting history as a form of remembering and reclaiming identity. The exploration of how stereotypes serve as both a tool of oppression and a means of survival.

2. The Myth of the American Dream

The America Play calls into question the mythologized version of American history, especially the narrative surrounding the frontier, liberty, and equality. Parks critiques the often-romanticized stories of pioneers and explores their implications for those marginalized in American society.

3. Trauma and Memory

The play delves into the collective trauma of slavery, segregation, and systemic racism. Parks emphasizes the ways in which trauma is passed down through stories and performance, often shaping the identities of Black Americans. The concept of "performing" history as a way to process trauma. The difficulty of confronting the brutal truths behind the stories told and remembered.

4. The Search for Significance
