# Understanding the Yamaha XJ 600 S and ET Through Revue Moto Technique Numero 88

The revue moto technique numero 88 Yamaha XJ 600 S et issue is structured to guide readers through the core systems of the motorcycle, starting with the engine and moving through the chassis, electrical components, and routine maintenance operations. The XJ 600 S (also known as the Diversion in some markets) and the ET models share a 600cc inline-four engine renowned for its reliability and smooth power delivery.

## Engine Specifications and Maintenance Insights

Within the revue moto technique numero 88, the engine's technical specifications are meticulously detailed. The 598cc air-and-oil-cooled inline-four engine features double overhead camshafts (DOHC) and a five-speed gearbox. The manual emphasizes the importance of periodic valve clearance checks, carburetor synchronization, and oil changes to maintain engine longevity and performance. In comparison to contemporaries like the Kawasaki ZZR600 or the Honda CBR600F, the

Yamaha XJ 600 S and ET prioritize smoothness and ease of maintenance over outright power. The revue moto technique numero 88 highlights this balance, noting that the engine produces approximately 72 horsepower, enough to satisfy both novice riders and experienced commuters.

## Chassis and Suspension Analysis

The revue moto technique numero 88 Yamaha XJ 600 S et issue dedicates considerable attention to the chassis and suspension setup.
