Historical Evolution of Pakistan’s Economy

Pre-Independence Economic Foundations

Before independence in 1947, the economic landscape of the Indian subcontinent was largely agrarian, with a significant focus on agriculture, handicrafts, and trade. The partition created immense economic disruptions, leading to the division of assets, loss of infrastructure, and displacement of populations. Pakistan inherited a fragile economy with limited industrial base and underdeveloped institutions.

development. - Security Concerns: External conflicts, especially with India, diverted resources and attention from economic reforms.

Economic Policies and Structural Changes

During the early decades, Pakistan adopted a mixed economy model, with significant state intervention. Land reforms, nationalization of industries, and attempts at import substitution industrialization characterized the policy landscape.
