State Sovereignty and Jurisdiction

One of the foundational concepts explored in this collection is state sovereignty—the principle that states have supreme authority within their territorial boundaries. These cases highlight the tension between respecting state sovereignty and the need for international cooperation, especially in matters like environmental protection and human rights enforcement.

International Dispute Resolution

The compilation offers a detailed examination of how international disputes are resolved, whether through negotiation, arbitration, or adjudication in bodies such as the International Court of Justice (ICJ). DJ Harriss's materials also shed light on emerging trends like the role of international tribunals in resolving investment disputes, a crucial topic for international economic law.

Human Rights and International Humanitarian Law

Another critical area covered extensively is the protection of human rights at the international level. Through a careful selection of case law and treaty materials, the collection illustrates how international law seeks to balance state interests with individual rights. The inclusion of cases from the European Court of Human Rights and the International Criminal Tribunal for the former Yugoslavia, among others, provides a comprehensive understanding of the enforcement mechanisms available and the challenges they face.
